

I developed this document for residents on ambulatory rotations so that they can use cLink to review whether an assigned clinic has been cancelled or not. Here is the way to look up the schedule for a particular clinic type. Joe Chavez Carey, July 2013

Step one: After logging in to cLink. Click on the little clock.

Step two: Enter the clinic site you are interested in under the Dept field. (Note: If you know the name of the specialty clinic as it is listed in cLink, enter that here and skip step three.)

Step three: This table should come up (example "WCHC"). Scroll down and double click on the clinic that you are interested in- WCHC RENAL in this example.
